(and when returning to the bench from the firing stations) No gun is to be capped or primed until the shooter is on the firing station. Breech loading guns must be broken open at all times when not on station and no shells may be placed in the breech until the shooter is on the firing stations. "Individual" matches must be completed the day they are begun. Aggregates may be spread over two days; but once an "individual" match is started, it must be completed the day they are begun. For example AGG I could be shot over 2 days, but not AGG BB)

The Range is located approximately 5 miles east of Stanford Kentucky just off U.S. Hwy 150. The Shooting Range is directly across the road from Cedar Creek Lake. Located on U.S. 150 between Stanford and Crab Orchard, KY. The Dam for Cedar Creek Lake is created by the US 150 road-bed and Cedar Creek Lane is at the east end of the Dam on the side opposite the Lake.

Listed below are several hotels in the area and their phone numbers. Some competitors have found it handy to stay on the East side of Danville on U.S. 150. This gives a straight shot down US 150 around Stanford and directly to the Shooting Range with few Traffic Lights (4 traffic lights come to memory). Cracker Barrel Restaurant is located on the East side of Danville on US 150 and several other nice restaurants are located in Danville. About 19 miles and 25 minutes from the East Side of Danville to the Range. And then 20 miles or 30 minutes from the Range in the other direction on East toward Mt. Vernon on I-75, there are some motels along I-75. And at Exit 62 on I-75 there is the Renfro Valley Entertainment Complex. If you want to bring a RV, you might be interested in staying at the Renfro Valley RV Camping facility.

#### **Other Activities in the Area you might be interested in:**

- Renfro Valley—located at exit 62 off I-75 they feature Country-Gospel-Bluegrass Music Shows, displays of Rural Kentucky Farm life in the area from an Era now past, Lodging, Dining, and a vision of Kentucky Mountain Life from the 1930's as interpreted by its founder John Lair. Handmade gifts and crafts. They sometime feature big name entertainers, however during our shoot, I do not see any listed on their Web-Site. Local musicians will probably be featured. See the web-site.
- William Whitley State Historical Site: Located near the Shooting Range. It is the oldest brick house west of the Alleghenies. It became a Kentucky State Park on February 25, 1938. Built between 1787 and 1794, it has brick walls two feet thick and is built to withstand Indian attacks; but also built for entertaining visitors within its walls. Sometimes known as the "Guardian of the Wilderness Road." Open May 1 – Oct. 31 M-F 9-5 and Sunday 11-5 ph.606-355-2881. See the web-site.
- Cedar Creek Lake: Located across the road from the Shooting Range, it is an excellent fishing lake for Bass, Bluegill, Crappie, Shell-Crackers, and Channel Catfish. It is managed by the Kentucky Dept. of Fish & Wildlife as a Trophy Bass Lake. Should be at its prime in early May.
- Shaker Village: Kentucky's largest Restored Shaker Village, it contains several Shaker Buildings restored to their original condition. Located on US 68 East of Harrodsburg. About 17 Miles from Danville. Less than an hours drive from the Shooting Range.

- Kentucky Bourbon Trail. Yep, just like the NAPA valley, Kentucky has its own Bourbon Trail. You are on your own on this one. But start by visiting the Kentucky State Parks web-site on the Bourbon Trail. At least eight of Kentucky's Distilleries participate. Get your Bourbon Passport.
- Kentucky Horse Park: Located just north of Lexington off I-75, it showcases not only the Thoroughbred Industry, but also many other Horse Breeds. Open year round.
- Perryville Battlefield: Located a few miles west of Danville, Civil War buffs will want to include this on their visit to central Kentucky.
