

Longhunter Society Policies

1. The Longhunter Society reserves the right to reject any trophy entry that fails to fully satisfy entry requirements.
2. The Longhunter Society does not accept velvet antlers for entry into our record book program.
3. The Longhunter Society only accepts trophies taken with muzzleloaders using black powder or a recognized black powder substitute as its propellant.
4. If you are hunting with a muzzleloader and you use a modern firearm to assist in taking a trophy, it will not be eligible for entry into the national muzzle loading rifle association's **Longhunter Muzzleloading Big Game Record Book**. However, if it is legal in the state where you are hunting to carry a muzzleloading handgun, and you administer the killing shot with this type pistol or revolver, then the animal may be measured for possible entry into our records.
5. The Longhunter Society accepts bison entries taken in the following areas only if they are taken on a fair chase hunt in an area where they are recognized as wildlife (rather than as domestic livestock) and where a specific hunting license and/or big game tag is required for their taking:
 1. House Rock Ranch-Arizona
 2. Alaska
 3. Henry Mountains Range-Utah
 4. Pink Mountain Canada Herd-Canada
 5. Northern Yukon Herd
 6. Custer State Park and Crow Reservation (only if the hunter is issued a permit from the Park or reservation.)
